FOREWORD

For the past 30 years the Rawburn programme has been built around breeding for commercial excellence. The programme is committed to breeding and sourcing the very best genetics domestic and foreign to continue meeting the goals of the Rawburn herd and that of our customers.

Our 2020 sire offering is our best to date. Alongside many of the most influential Angus sires in the UK we include new sires that really will give your herd a genetic fuel injection.

We are delighted to be offered the chance to market semen on LG Elgin. 25,000gns Elgin was the highest selling Angus bull in the UK in 2019. He is a bull that has the looks and pedigree to become one of the best.

Rawburn Jumbo Eric is a combination of the very highest performance genetics with film star good looks. I am not sure if we have ever bred a bull that is more visually attractive.

Rawburn Bannockburn offers something unique to our herd sire portfolio. He is the ultimate in feed efficiency and growth. We believe that this combination is the future of profitable beef production. His low birth weights make him ideal for two-year-old heifers.

For predictable growth and performance look no further than 22,000gns LG Powerhouse. His Dam, Polestar, is a class act and has now naturally bred two sons that have topped Stirling bull sales.

For the past three years our #1 selling bull is Rawburn Boss Hogg. Every year his numbers get even more accurate and outstanding. The performance of his daughter have made him the highest milk bull in the UK herdbook.

These bulls work in our herd, they work in herds throughout the country and they will DEFINITELY work in your herd. Our bulls guarantee you success.

BOSS HOGG

What a bull! With progeny in 83 herds in the UK, Boss Hogg's numbers are as accurate and as good as you can get. Low birth weight, good growth and the highest in the breed for milk.

His outcross pedigree leaves nothing to chance. His Dam is a maternal sister to Hoff Limited Edition. We regard her as the best female we have ever owned in North America. Angus cows rarely come as powerful, yet maintain such femininity and class.

His sire TC Freedom is a breed legend that has proven himself as a consistent breeder of growth, muscle and milk with moderate birth weights. A bull that not only looks great but also produces cattle that are functional and desired in the show and sale ring.

Boss Hogg guarantees to breed easily born, fast growing calves. His sons will be the first out the sale pen and a certainty to please your customers. His daughters will wean your heaviest calves. They are a maternal masterpiece.

Dam Hoff Blackbird 5218

**EXCITING
OUTCROSS SIRE**

JUMBO ERIC

Don't you love it when a plan comes together! Jumbo Eric is exactly what we hoped would result from mating the UK's highest Index cow with one of the most dominant sires in the breed today.

Jumbo Eric's Dam is a performance giant that always breeds something very special. She has already bred three five figured sons Rawburn Jackson Eric (Skail), Rawburn Jumbuck Eric (Skail) and Rawburn Jingo Eric (Cogent).

Jumbo's Sire, Gretnahouse Blacksmith, is a bull that combines performance with faultless breed character and style. His sons have been amongst the most sought after in the UK in recent years.

Staggering performance, Easy calving and quiet. His stunning head is backed up with one hell of a carcass!

Jumbos first calves are now on the ground and they are outstanding. Born easily and full of performance and eye appeal.

**Rawburn Jumbo Eric -
exceptional from any angle**

Rawburn Joy Erica L342

ELGIN

If there is one bull, we urge you to try this summer it is Elgin. His first calves are on the ground at Rawburn and Eastfield and they are fantastic!

Elgin sold for 25,000gns and was the highest selling Angus bull in the UK in 2019. His Dam, Rawburn Ellen Erica E405, has bred 4 sons working in pedigree herds and include Rawburn End Point (Cragg herd) and £30,000 Rawburn Emblem (Ballathie herd). Maternal sisters of Elgin are some of the best at Rawburn and include Ellen Erica J926, who herself, has bred sons to £20,000 and registered 50 progeny in the UK herdbook.

Elgin is a unique blend of many of the most influential cattle in the Rawburn programme including Hoff Limited Edition, TC Freedom, Royal Eston Anne and Cudlobe Ellen Erica. This rare blend of high performance and maternal soundness make Elgin a very potent combination.

If you want to use a new Sire that will breed stock that can top shows and sales, yet still perform at the highest levels, then Elgin is a must in your 2020 Programme.

BANNOCKBURN

Rawburn Bannockburn is designed for maximum feed efficiency without the compromise on growth and breed character.

In 2016 we purchased his Dam, Nichols Bonnie Y292, from the Nichols herd in Iowa. This cow was identified and selected due to her exceptional performance and traits for feed utilisation. Bonnie's 2015 born son shattered every record in the Nichols herd for Residual Average Daily Gain (feed efficiency and growth).

Bannockburn's Sire, QH Rampage, is one of the most dominant sires ever in the US. A bull renowned for exceptional growth, structural soundness and fertility.

Bannockburn is designed to breed cattle that are born easily, grow quickly with an unrivalled ability to turn grass or feeding into red meat. Put no extra in and get greater returns!

POWERHOUSE

22,000gns Linton Gilbertines Powerhouse was the high selling bull at the 2018 Stirling Autumn sale. Powerhouse is the highest performance bull born in the UK in 2017 and the highest Index bull ever to be offered for sale in the UK by public auction.

A performance giant, he combines moderate calving with mind blowing growth. His Dam, Polestar, is an average sized, wide, correct female that has bred two consecutive Stirling October high sellers (17,000gns & 22,000gns). His sire, Rawburn Dublin, transmits unrivalled growth. His daughters are some of the most impressive in the Rawburn herd.

We will be using this bull heavily in our own herds in 2020 because we don't know of any bull that can match him for growth, power and sensible calving ease.

BLACK HAWK

In the history of the Rawburn herd, no bull has stood out from his contemporary group more than Black Hawk L261. His combination of performance, pedigree and eye appeal were unrivalled within the herd and justified his position as the most valuable bull we have ever sold. At 11½ months old Black Hawk sold for £40,000 to the Linton Gilbertines herd.

His Dam is one of the stars of the Rawburn programme and is a daughter of the great maternal bull Rawburn Duke Windsor E440. His sire, 24,000gns Lockerley Legolas, was the top priced bull sold in the UK in 2009.

Rawburn Black Hawk's offspring have had great success at bull sales and shows around the UK. His sons and daughters have won numerous championships including Overall Champion at the Royal Welsh Show and Male Champion at 2016 RHS. His Progeny were Champion Sire Group at 2016 February bull sales and averaged £5538. In October his daughters sold to a top of 15,000gns and averaged £10,675. For proven consistency and quality look no further than Rawburn Black Hawk.

BALMACHIE JACK ERIC

Angus bulls do not come any more correct, naturally muscled or full of breed character than Jack Eric.

Balmachie Jack Eric was purchased for 18,000gns and was the high selling bull at the February 2017 Stirling sale.

Jack Eric is sired by unique outcross bull Balmachie Ben Vorlich who is a direct son of the great US sire G13 Steel.

His calves are correct, thick and full of style. His progeny has great fleshing ability, hair and character. They are a big hit with commercial bull buyers.

JAGGER ERIC

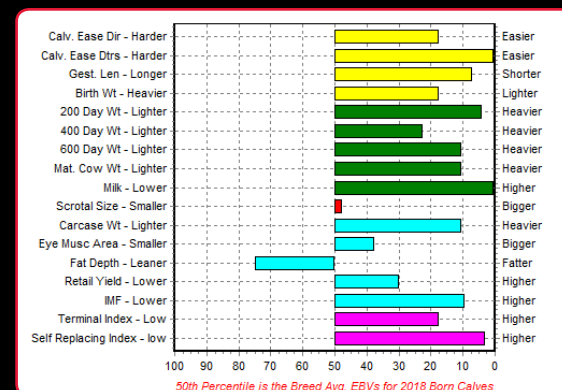

The buyer says "I want Angus calves that are born unassisted with excellent vigour, compete at the highest level for growth and make excellent females to retain in my herd." We say "You need Jagger Eric"

There is no bull in the breed better for calving ease that is higher from Terminal Index, Self Replacing Index and milk.

If you value your sleep but still want top quality Angus calves then look no further than Rawburn Jagger Eric.

THE CALVING EASE SIRE THAT DOES NOT COMPROMISE ON GROWTH

ROYALTY SIRE

RAWBURN FIREBRAND

Although we have bred many good sons of Rawburn Elysium, until now, we have not bred a son that we felt could surpass the great bull.

Rawburn Firebrand is a potent combination of showring and performance genetics. His Dam is the result of an embryo from highly proven North American genetics. She is the most decorated show cow ever in Denmark, winning the National Championship twice.

Firebrand's own performance was huge, recording an adjusted 400-day weight of 780Kgs and an Eye Muscle Area of 116 cm² at just 12 months of age. In 2016 sons of Firebrand were the high selling sire group at Rawburn and his first daughter to be sold at public auction made 9,500gns at just 10 months old.

From their exceptional performance data and the show winning style of his progeny we are confident that Firebrand is the bull that can overtake his Sire.

Sire – Rawburn Elysium

Dam – ML Felicia Dateline

Daughter - 9500gns at 10 months old

DOUBLE OSEVEN

007 is bred to be the very best. His Dam has, in three separate years, bred the heaviest male or female in the herd at 400-days. No other cow has done this more than once.

His sire, Rawburn Randolph, has established himself as maybe the best we have bred at Rawburn. His daughters are the nucleus of the herd and through their exceptional production records are the stars of the Rawburn programme.

Sister - UK record priced heifer, 24,000gns

ELMER

We do not know of a bull in the breed today that can breed more muscle with such fantastic calving and performance figures as Elmer. With such a potent performance combination, Elmer is ideal to breed to heifers or cows alike. His first crop of calves were born easily, predominantly out of 24-month-old heifers and have grown on to demonstrate the same muscle expression and style as himself. His first calves are proving a great hit with pedigree and commercial breeders and are certain to generate a premium in today's market. If you want to breed show and sale winning cattle and sleep easy at night then Elmer is the bull for you!
